*It has been personally one of the most challenging years for me with passing away of my mother in early part of the year, she was cared by our doctors and staff with love affection and dedication and she truly appreciated each and everyone involved in her care. Let me thank all of you for the support and affection shown to me during this time.*

*I continue to miss her and her blessings but take her ideals of showing love and respect for everyone as her legacy to me.*

*I would personally like to thank all of you for your hard work, empathy and dedication shown towards the patients thereby helping PARAS Hospitals to establish itself as centre of excellence and one of the most preferred providers in our area.
